Layoff Watch US

CUSTOM REPORT

SAMPLE · FLORIDA

Layoffs in Florida, July–November 2026

A sourced cut of the Layoff Watch US tracker for one state: counted jobs, WARN-backed share, top employers, and every event with its source.

20 unique events
After combining 1 duplicate

2,656 workers counted
+ 1 employer with no headcount

52% backed by WARN
1,369 of 2,656 counted jobs

Prepared November 20, 2026
Dataset updated November 20, 2026 · layoffwatchus.com

SAMPLE REPORT

01 · EXECUTIVE SUMMARY

What the Florida cut shows

Between July and mid-November 2026, Layoff Watch US recorded 20 unique layoff events at Florida employers, after combining one duplicate filing. Those events cover 2,656 workers where a headcount was disclosed, plus 1 employer (Real REMAX Group) that confirmed additional cuts after a merger but did not give a number.

A little more than half of the counted jobs — 1,369 out of 2,656, or 52% — are backed by a Florida WARN notice. The rest come from news reports and other public sources. We label those “not confirmed” in the tracker, which means we have a public report but not a matching WARN filing in our records.

20	2,656	14	Oct 2026
Unique employer events, July–mid-November 2026	Workers counted (headcount disclosed)	Events backed by a Florida WARN notice (1,369 jobs)	Busiest month by counted jobs (823)

> The tracker had 21 Florida rows. One of them — Terrace of Hialeah in Hialeah, dated October 7, 2026, for 175 jobs, sourced from Today's Layoffs (Oct 2026) — is the same event as TH Opco LLC d/b/a Terrace of Hialeah, which also appears as a Florida WARN notice for the same date, city and headcount. This sample counts that event once, using the WARN-backed row.

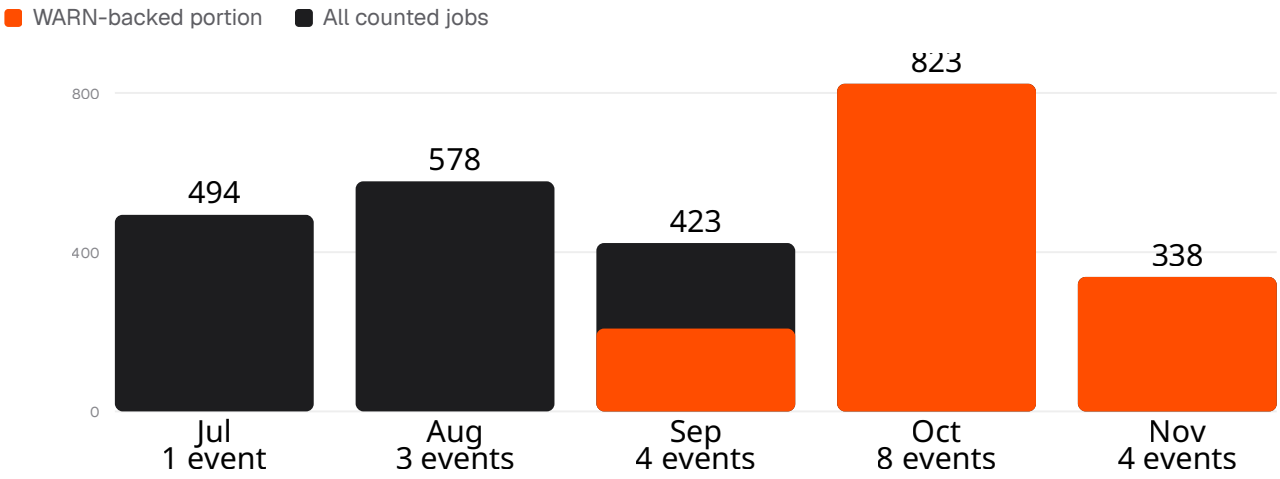

Healthcare led all industries by counted jobs (510), just ahead of a single large retail event: Amazon in Port St. Lucie (494, reported in a July 2026 roundup and not confirmed by a WARN notice in this dataset). The largest WARN-backed event in the period is Mosaic (199 jobs) in Fort Meade.

This is a sample, built to show a paying client what a single-state report looks like. A live report would use the tracker as of the delivery date, and can be cut by industry, metro, or a custom list of employers instead of by state. Headcounts that were never disclosed are listed, but they are not added into totals.

02 · TRENDS

Monthly activity and mix

Counted jobs by month

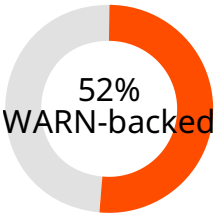

July is dominated by the Amazon Port St. Lucie report (494 jobs, not WARN-confirmed in this dataset). From September onward, a larger share of the counted jobs come from FloridaCommerce WARN notices. November is a partial month, through November 18.

Counted jobs by industry

Industry tags are assigned by Layoff Watch US from the headline and source text. “Other / not specified” includes 138 counted jobs plus Real REMAX Group, which did not disclose a headcount.

WARN-backed share

1,369 of 2,656 counted jobs, across 14 of 20 events, are tied to a Florida WARN notice. The other 1,287 counted jobs, across 6 events, are news-sourced or otherwise not confirmed by a WARN filing in our records.

03 · EMPLOYERS

Largest Florida events in this period

Ranked by disclosed headcount. Events with no number are listed in the full table that follows, but they are not ranked here.

	EMPLOYER	JOBS	INDUSTRY	DATE	SOURCE TYPE
1	**Amazon** Port St. Lucie	494	Retail & e-commerce	Jul 2026	Not confirmed
2	**Astrion** (statewide)	220	Aerospace & defense	Aug 28	Not confirmed
3	**Health First** Rockledge	215	Healthcare	Sep 16	Not confirmed
4	**Mosaic** Fort Meade	199	Energy & mining	Oct 5	WARN
5	**Full Sail University** Winter Park	180	Education	Aug 28	Not confirmed
6	**Saddle Creek Corporation** Plant City	178	Logistics	Aug 14	Not confirmed
7	**TH Opco LLC d/b/a Terrace of Hialeah** Hialeah	175	Healthcare	Oct 7	WARN
8	**Ideal Cabinetry** Bartow	165	Logistics	Nov 16	WARN
9	**Aetos Systems** Merritt Island	126	Aerospace & defense	Oct 16	WARN
10	**GEICO** Lakeland	114	Financial services	Nov 2	WARN

“Date” is the date recorded in the tracker, usually the notice or report date, not necessarily the day people left the job. Amazon’s entry is recorded as July 2026, without a specific day. “Not confirmed” means we have a public report but not a matching WARN notice in this dataset.

04 · FULL TABLE

Every Florida event in this cut

All 20 unique events, newest first. Headcounts are as disclosed. Sources are named here; full URLs are listed under Methodology and sources.

DATE	EMPLOYER	JOBS	INDUSTRY	WARN	SOURCE

Aug 14	**Saddle Creek Corporation** Plant City	178	Logistics	Not confirmed	Today's Layoffs, Aug

DATE	EMPLOYER	JOBS	INDUSTRY	WARN	SOURCE
Jul 2026	**Amazon** Port St. Lucie	494	Retail & e-commerce	Not confirmed	Today's Layoffs, Jul

Where the events were

CITY	EVENTS	COUNTED JOBS
Port St. Lucie	1	494
(statewide)	1	220
Rockledge	1	215
Orlando	3	199
Fort Meade	1	199
Merritt Island	2	196
Winter Park	1	180
Plant City	1	178
Hialeah	1	175
Bartow	1	165
Multiple Locations	2	127
Lakeland	1	114
Jacksonville	1	82
Ocala	1	57
Sarasota	1	55
Miami (HQ; location of cuts not specified)	1	0 + 1 undisclosed

Cities are as recorded in the tracker. “Multiple Locations,” statewide, and unspecified sites are listed in their own rows rather than being folded into a metro total.

How to read the table

- Newest events are first. The date is the tracker date (usually the notice or report date), not the day people left the job.
- 14 of 20 events, covering 1,369 counted jobs, are tied to a Florida WARN notice.
- The remaining 6 events (1,287 counted jobs, plus any undisclosed headcounts) are public reports that are not confirmed by a WARN filing in this dataset.
- One duplicate (Terrace of Hialeah / TH Opco LLC) is counted once, using the WARN-backed row.

05 · METHODOLOGY AND SOURCES

How this report was built

What's in it

Every row is an entry from the public Layoff Watch US tracker (`layoffwatchus.com`), limited to Florida, as of November 20, 2026. The tracker records layoff announcements and WARN notices from public sources: state WARN filings, company statements, and news reports. This sample includes events dated Jul 2026 through November 18, 2026. The national tracker also has entries earlier in 2026; this Florida cut simply does not contain any Florida events before July in the current dataset.

How we count

- Totals use the numeric headcount (*n*) when one was disclosed. Entries with no number are listed and called out, but they are not added into job totals.
- A "WARN-backed" event is one the tracker marks as tied to a WARN notice. "Not confirmed" means we have a public report, not that the layoff did not happen.
- Dates are the dates recorded in the tracker, usually when the notice was filed or the story ran, not the separation date.
- Industry tags and company names follow the tracker. We do not invent missing headcounts or locations.
- One duplicate Florida event was combined, as described in the executive summary. A paid report would apply the same review to any other state or industry cut.

What this is not

This is not a complete census of every Florida layoff. Many employers are not required to file a WARN notice, and some notices and news reports may be missing or later revised. Figures can change as better source material appears. This report is for general information. It is not legal, tax, or financial advice, and it is not a finding that any employer violated the WARN Act or any other law.

Sources used in this cut

- **Today's Layoffs (Aug 2026)** — 3 entries
  `https://todayslayoffs.com/data/2026/08/`
- **Today's Layoffs (Jul 2026)** — 1 entry
  `https://todayslayoffs.com/data/2026/07/`

The official Florida WARN page is published by FloridaCommerce. "Today's Layoffs" is a third-party roundup; where a row is backed only by that roundup, we label it not confirmed.

06 · WHAT'S IN A PAID REPORT

A client-ready cut, delivered by email

A paid custom report uses the same method as this sample, on the tracker as of the delivery date. It is a one-state or one-industry cut unless you ask for something else.

What you receive

- A PDF like this one: summary, trends, top employers, a full event table, and sources.
- A spreadsheet of the underlying entries, with source links.
- Delivery by email within 2 business days of payment (or of a confirmed custom scope, for enterprise work).

Starting prices

- Single report — $199 one-time (one state or industry).
- Quarterly reports — $499 every three months.
- Enterprise — from $1,200 a year, quoted for a custom geography, employer list, or a license to publish the figures.

License and limits

- The standard $199 and $499 reports are for your internal use. If you need to publish the figures, ask for a license.
- This is general information, not legal, tax, or financial advice, and not a finding that any employer violated the law.
- Figures can change as new notices and reports appear. A live report is dated as of delivery.

How to order

Pay on layoffwatchus.com/signals, or email **info@layoffwatchus.com** with the state, industry, or employer list you need. Custom reports are also an add-on to a Layoff Watch Signals subscription.

Sample only. This PDF was prepared on November 20, 2026 as a preview of a custom Layoff Watch US report. It is not a live client deliverable and is not licensed for publication or resale.
